The 991 was an entirely new platform, only the third since the original 911 launched in 1963 (the 996 of 1999 was the second new platform). Production of the 991 generation ended on December 20, 2019, with 233,540 units produced.[1] Design Porsche 911 (991) Carrera 4S CoupéPorsche 911 (991) Targa 4 Compared to the 997, the 991 is slightly larger, with the wheelbase increased by 100 mm (3.9 in) to 2,450 mm (96.5 in), and the overall length up by 70 mm (2.8 in) to 4,490 mm (176.8 in).[2] A new transaxle was developed so that the rear wheels could be moved 76 mm (3 in) backward in relation to the position of the engine, which significantly improves the weight distribution and cornering performance of the car.[3][4] Due to the use of high-strength steel, aluminium and some composites, the weight was reduced to 1,380 kg (3,042 lb) for the manual Carrera, rising to 1,605 kg (3,538 lb) for the all wheel drive Turbo model if equipped with the PDK transmission (Porsche Doppelkupplung). PDK is available as an option for all 911 Carrera and 911 Turbo (991.1 Non S) models as a 7-speed transmission, featuring manual and automatic modes. Gears 1 to 6 have a sports ratio and top speed is reached in 6th gear. 7th gear has a long ratio and helps to reduce fuel consumption by keeping engine revs low. The PDK is essentially two gearboxes merged into a single unit and thus requires two clutches. For all 991 models, the PDK is produced by ZF Friedrichshafen. The auto start/stop function is standard on all variants of the 911 Carrera. First phase (2011-2016) (991.1) 911 Carrera and Carrera S (2011-2015) 2012 Porsche 911 Carrera S Porsche 991 Carrera S Porsche 991 Carrera Convertible Introduced at the 2011 Geneva Motor Show, the Carrera S has a 3.8 litre engine generating a maximum power output of 400 PS (294 kW; 395 hp) at 7,400 rpm and 440 N·m (325 lb·ft) of torque at 5,600 rpm. The convertible variants, the Carrera 4 and 4S, were added to the 991 lineup. 911 Carrera GTS (2014-2016) Introduced in November 2014 at the LA Motor Show, the 991 Carrera GTS sits between the Carrera S and GT3. Base options included with purchase: power output of 430 PS (316 kW; 424 hp), Sport Chrono Package, Sport Exhaust System, Dynamic Engine Mounts, 10 mm lowered suspension, Porsche Torque Vectoring (PTV) system, LED daytime running lights with Porsche Dynamic Lighting System (PDLS), Sport Design Side Mirrors, GTS badging, and 20-inch centerlock wheels. When optioned with PDK, acceleration from 0-97 km/h (0-60 mph) is achieved consistently at 3.8 seconds with the help of Launch Control [citation needed] The 2016 model year also brought about the Rennsport Reunion Edition. limited to 25 cars, which featured a Fashion Grey livery and a 436 PS (321 kW; 430 hp) naturally aspirated 3.8-liter flat-six engine available exclusively with a manual transmission. It also included 18-way power spo seats, PASM adaptive suspension, Bose audio system, rear parking sensors, carbon-fiber dashboard trim, 20-inch sport classic wheels, adaptive headlights (PDLS, or Porsche Dynamic Light System), and a special leather case for the key with "911 Carrera GTS Rennsport Reunion Edition" lettering.[6] 911 Carrera GTS Club Coupe was introduced to celebrate the 60th anniversary of the Porsche Club of America. Just 60 Club Coupe was introduced for the 2016 model year.[7] Notable changes from the standard GTS include 20" alloy wheels (the same as those found on the 2014 50th Anniversary Edition) which pays homage to the "Fuchs"-style wheels on classic 911s, special "Club Blau" exterior paint,[8] SportDesign bodywork, and a "ducktail"-style spoiler which references classic motorsports-oriented 911s, for example the Carrera RS 2.7. The interior features Club Coupe-specific dashboard trim, door sills, and center console lid.[9] The Club Coupe had an MSRP of \$136,060 excluding destination fee and was only available to Porsche Club of America members.[10] 911 50th Anniversary Edition at the 2013 Frankfurt Motor Show for the 2014 model year.[11] 1,963 individually-numbered examples were produced. The 50th Anniversary Edition was based on the Carrera S, including the standard 7-speed manual with the 7-speed Edition featured the Porsche Active Suspension Management system and Porsche Torque Vectoring as standard equipment.[12] The optional Powerkit increased the engine's output to 430PS/424 hp. Cosmetically, the 50th Anniversary Edition featured the wider body of the Carrera 4S,[13] 10mm lower suspension,[14] special 20" alloy wheels which reference the iconic Fuchs wheels on classic 911s,[15] chrome trim across the body including the vents on the rear engine cover and window trim, standard SportDesign side mirrors, and a special "911 50" rear badge. Three colors were available: Geyser Grey, Graphite Grey, and black monochrome.[16] On the interior, the 50th Anniversary Edition has vintage-style green instrument dials, white instrument dial needles, retro "houndstooth" seat inserts, and a badge on the trim above the glovebox commemorating the special edition and listing the production number of the vehicle. The 50th Anniversary Edition carried an MSRP of €121,119 including VAT[17] or £92,257,[18] and was only made available to current Porsche owners.[19] 911 Targa 4 and 4S (2014-2016) Porsche 911 Targa 4S (top) and Targa 4S models. These new derivatives come equipped with an all-new roof technology with the original targa design, now with an electronically operated soft top along with the original B-pillar and the glass 'dome' at the rear. On 12 January 2015, Porsche announced the 911 Targa 4 GTS at the North American International Auto Show in Detroit. Similar in appearance to the existing Targa 4 and 4S models, the GTS added the 430 PS (316 kW; 424 bhp) engine plus several otherwise optional features. [20] 911 GT3 (2013-2015) Main article: Porsche 911 GT3 Variant was added to the 991 line up at the 2013 Geneva Motor Show equipped with Porsche's new active rear wheel steering. The system is claimed to provide higher lateral dynamics than previously available by the manufacturer. Car speed inputs determine whether the rear wheels steer in the same or opposite direction of the front wheels. It is the first GT3 model to be offered with an automatic transmission. At the start of 2014, deliveries of the GT3 were halted following two incidents of the car catching fire. [21] A subsequent recall to replace the engines of all 785 cars manufactured at that time was announced in March 2014 before production of the GT3 would restart.[22] 911 GT3 RS (2015-2016) Main article: Porsche louvers above the wheels and the rear fenders now include intakes taken from the 911 Turbo, rather than an intake below the rear wing. The roof is made from magnesium. The interior includes full bucket seats (based on the carbon seats of the 918 Spyder), carbon-fibre inserts, lightweight door handles and the Club Sport Package as standard (a bolted-on roll cage behind the front seats, preparation for a battery master switch, and a six-point safety harness for the driver and fire extinguisher with mounting bracket). The 3.8-litre unit found in the 991 GT3 is replaced with a 4.0-litre unit generating a maximum power output of 500 PS (368 kW; 493 hp) and 339 lb ft (460 N·m) of torque. The transmission is PDK only. The car is able to accelerate from 0-100 km/h (0-62 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 RS 4.0) and to 0-200 km/h (0-124 mph) in 3.3 seconds (0.6 seconds quicker than the 997 GT3 gearbox - and a Pit Speed limiter button. As with the 991 GT3, there is rear-axle steering and Porsche 701 R (2016) Porsche 911 R (2016) Porsche 911 R Unveiled at the 2016 Geneva Motor Show on 1 March, the 911 R shares most of its underpinnings with the GT3 RS, but does not include the roll cage, rear wing, and associated bodywork for a weight saving of 50 kg (110 lb). The 911 R comes only with a 6-speed manual transmission, and has a top speed of 323 km/h (201 mph) due to a lower drag coefficient as compared to the GT3 RS. It also offers additional options including a lighter flywheel and removal of the air conditioning and audio systems. Production was limited to 991 examples, as a 2016 model. [24] 911 Turbo and Turbo S (2012-2016) Porsche 911 Turbo Porsche 911 Turbo has a twin-turbocharged 3.8-litre flat-6 engine generating 520 PS (382 kW; 513 hp) and 620 N·m (457 lb ft) of torque. [25] The S version has an upgraded version of the engine generating a maximum power output of 560 PS (412 kW; 552 hp) and 700 N·m (553 lb·ft) with overboost function. Both of the versions have all-wheel drive. The Turbo was available with the 7-speed manual transmission or the optional 7-speed PDK. The Turbo S was only available with the 7-speed PDK. The Turbo S can reach 100 km/h (62 mph) in 2.9 seconds as claimed by Porsche but has achieved 2.6 seconds by many car magazine tests. [26][27] New technologies featuring adaptive aerodynamics and rear wheel steering are included as standard. The Turbo S cabriolet were introduced in early 2013. The updated front and rear bumpers, new dual exhaust pipes along with new head and tail lights and options, along with all new, 3.0-litre twin-turbocharged flat-six engines across the range. This marked the first time the base 911 models had turbocharged flat-six engines across the range. October 2015, available models were the coupé and cabriolet versions of Carrera 4 and 4S were unveiled in December 2015. 911 Carrera T (2017-2019) Porsche 911 (991) Carrera 4 and 4S were unveiled in December 2015. 911 Carrera 4 and 4S were unveiled in December 2015. shorter rear axle ratio, mechanical differential lock, PASM Sport lowered suspension, Sport Chrono package and sports exhaust as standard. Additional features include a reduced sound insulation, light-weight glass side/rear windows, Sport-Tex seats, a shortened shift lever, deletion of the rear seats and communication system (with their re-addition available as a no-cost option), Carrera S wheels, as well as optional rear-wheel steering, PDK transmission and bucket seats. [28] 911 Targa 4 and 4S (2016-2019) Porsche 911 (991) Porsche 91 power output of 420 PS (309 kW; 414 hp) and 499 N·m (368 lb·ft) of torque. 911 Carrera/Targa 4 GTS (2017-2019) Porsche 911 GT3 and GT3 Touring Package (2017-2019) Main article: Porsche 911 GT3 Porsche 911 GT3 TouringPorsche 911 GT3 The 2017 GT3 was unveiled at the 2017 Geneva Motor Show, and has a 4.0-litre flat-six engine, aerodynamic upgrades, and an optional 6-speed manual gearbox (absent on the 991.1-phase GT3). The 911 GT3 Touring followed in September 2017, with a manual transmission and without a fixed rear wing.[30] 911 GT3 RS (2018-2019) Main article: Porsche 911 GT3 Porsche 911 GT2 RS In February 2018, Porsche unveiled the new GT3 RS, available with optional Weissach package with the official unveiling taking place at the 2018 Geneva Motor Show.[31] 911 GT2 RS (2017-2019) Main article: Porsche 911 GT2 RS The 911 GT2 RS The 911 GT2 RS was officially launched by Porsche at the 2017 Goodwood Festival of Speed along with the introduction of the 911 Turbo S Exclusive Series. It is powered by a 3.8 L twin-turbocharged flat-6 engine generating a maximum power of 700 PS (515 kW; 690 hp) at 7,000 rpm and 750 N·m (553 lb·ft) of torque, giving the car a power to weight ratio of 2.1 kg (4.63 lb) per horsepower and making it the most powerful 911 ever built. A Weissach package option is available.[32] In late September 2017, the GT2 RS set a 6:47.3 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around the Nürburgring, which made it the fastest Porsche 911 lap time around t 991.2 Turbo S Exclusive Series In December 2015, Turbo and Turbo S versions were launched. This was the first Turbo (Non S) to be offered without a manual transmission.[34] In June 2017, the Turbo S Exclusive Series with powerkit and CFRP body panels was launched, limited to 500 units. Braided carbon-fibre wheels were available as option.[35] [36] 935 (2019) Porsche 935 At the Porsche Rennsport Reunion VI held in September 2018, Porsche unveiled a limited edition track-only special paying homage to the legendary 935 race car. Based on the GT2 RS, the new 935 is designed to look like the 935/78, better known as the "Moby Dick" and features carbon fibre body work and an elongated "whale tail" rear section giving the car a total length of 4,865 mm (191.5 in) and width of 2,034 mm (80.1 in), making the car larger in terms of dimensions than the donor car. Wheelbase has been increased to 4,457 mm (175.5 in). Other changes include a large 1,909 mm (75.2 in) wide and 400 mm (15.7 in) deep rear wing, LED headlights mounted in the lower air intakes beneath the "flatnose" from the 911 RSR, a full roll-cage in the interior, a racing bucket seat from RECARO with six-point racing harness, a lightweight lithium ion battery, a 115-litre FIA FT3-approved safety fuel cell with fuel cut-off safety valve, a fire extinguisher and an air jack system. With the changes and additions the car weighs in at a total of 1,380 kg (3,042 lb). The 3.8-litre twin-turbocharged flat-six engine as used on the GT2 RS is untouched and generates 700 PS (515 kW; 690 hp). Power is sent to the rear wheels via a 7-speed dual clutch transmission with dual mass flywheel. The car retains ABS and Porsche Electronic Stability Management System including a full defeat mode. Unlike most racing cars air conditioning is standard-equipment. A passenger seat as well as a Martini sponsor-livery inspired by the original 935/78 are available as an option. Production of the 935 was limited to 77 units with deliveries starting in June 2019.[37][38] 911 Speedster (2019) Porsche 911 Speedster (shell of the Carrera 4 Cabriolet, the Speedster sports a 4.0-litre naturally aspirated flat-six engine with a maximum power output of 500 PS (368 kW; 493 hp) and a red-line of 9,000 rpm coupled with a 6-speed manual transmission, which is claimed to be 4 kg (9 lb) lighter than the 7-speed manual transmission found on the standard 991 models, and a

titanium exhaust system. The car also features the signature "hump" shaped double bubble roof cover along with a shorter windshield frame, side window glass and the central fuel cap from the 911 Speedster concept unveiled earlier at the Goodwood Festival of Speed harking back to its use on the 356 Speedster. Other highlights include a leather interior with perforated seats, red tinted daytime running lights, carbon fibre fenders, engine cover and hood and stone guards. Production will begin in the first half of 2019[39] and be limited to 1,948 units in honour of the year in which the 356 "Number 1" gained its operating license.[40] The final production version of the Speedster was unveiled at the 2019 New York Auto Show in April and dropped the "Talbot" wing mirrors in favour of standard 991 wing mirrors and announced to be available for sale in May 2019.[41] The engine adopted from the GT3 is equipped with individual throttle bodies and a new fuel injection system and develops 510 PS (375 kW; 503 hp) at 8,400 rpm and 470 N·m (347 lb·ft) at 6,250 rpm. The exhaust system is claimed to be 10 kg (22 lb) lighter despite the addition of two petrol particle filters. The car is equipped with carbon-ceramic brakes (PCCB) as standard, a Heritage Design Package is available as option.[42] The Speedster was also the final edition of the 991, with only 1,948 units produced. Production of the 991 generation ended on December 20, 2019 and the final 991 model was a 991 Speedster. Porsche made 233,540 991s worldwide.[43] The last unit of the Speedster was auctioned off in April 2020.[44][45] Engines Model Engine (displacement) Power Torque Carrera, Carrera T, Targa 2,981 cc (March 2015) (Learn how and when to remove this template message) Motor vehicle Porsche 356/1Porsche No. 1 Type 356, Porsche MuseumOverviewManufacturerPorscheProduction1948, only 1 BuiltDesignerErwin KomendaBody and chassisClass2-door sports carBody styleRoadsterLayoutRMR layoutPowertrainEngine1.1 L Type VW369 B4DimensionsWheelbase82.7 in (2,101 mm)Width65.4 in (1,661 mm)Curb weight585 kg (1,290 lb)ChronologyPredecessorPorsche 356/1 was the first real car created by Ferdinand "Ferry" Porsche. This prototype car was a two-seater open roadster with a mid-mounted, air-cooled flat-4 engine of 1,131 cc displacement that produced 40 horsepower (30 kW). While the body was an original design, most of the mechanicals (including engine and suspension) were derived from the Volkswagen Beetle which Ferry's father, Ferdinand Porsche, had designed. The aluminum roadster body of the 356/1 was designed by Porsche employee Erwin Komenda in April 1948 at Gmünd and completed only a month later. Smooth and low, the 356/1 set the pattern for later 356s with one fundamental difference; the engine of the production cars was moved behind the rear axle (to reduce costs and make room for two additional seats). The car was registered by the state of Carinthia (Kärnten) with the license plate K45-286 and made its maiden voyage on June 8, 1948. The Porsche 356/1 Only one 356/1 was made and it is on display at the Porsche 356/1 Was made and it is on display at the Porsche 356/1 External links Wikimedia Commons has media related to Porsche 356/1. about a classic post-war automobile produced between 1945 and 1975 is a stub.
